- **Testing:** Jest, React Testing Library, Storybook
- **Node.js:** Express.js
- **Databases:** Firebase, Supabase, MongoDB
- **API:** REST API, Swagger
- **Bundlers:** Webpack, Vite, Parcel, EsBuild
- **Git:** GitHub, GitLab, Bitbucket
- VSCode, IntelliJ IDEA, WebStorm
- Jira, Confluence, Trello, Slack
- **Russian (Native), English (B2+)**

EDUCATION

Belarusian State University of Informatics and Radioelectronics

Faculty of Information Technologies and Management

Department: Intellectual Information Technologies

2002 - 2007

Belarusian National Technical University

Faculty: Institute of Improvement of Professional Skills and Staff Retraining

Department: Web design and computer graphic

2008 - 2010

EXPERIENCE

Front-end Developer | StoneX

Nov 2024 - Nov 2025

Key Responsibilities:

- Led front-end development in one of three squads for a legacy project built on Sitecore CMS (.NET + native JS + Preact); collaborated with a team of 2 backend, 3 frontend, and 2 QA engineers; code review conducted; assisted PM with tasks estimations and team coordination.
- Participated in migrating the platform to a modern stack: React + Next.js + Tailwind CSS, using Storybook for UI components and Uniform.dev + Kontent.ai for content integration.
- Developed reusable components, reviewed and created POCs, and actively contributed to the Scrum cycle and demo sessions.

Key Achievements:

- Maintained and improved the legacy product's performance and stability.
- Contributed to a successful migration, improving scalability and development speed.
- Helped establish a CI/CD pipeline using GitHub and Vercel.

Front-end Developer | Synder

Nov 2023 - Sep 2024

Key Responsibilities:

- Served as the senior front-end engineer, working on four projects of varying complexity using React.js, Redux, and RTK Query.
- Collaborated closely with product owners, back-end developers, and designers to accurately define and understand tasks, providing reliable time estimates.
- Participated in grooming sessions and task discussions, contributing to sprint planning.
- Conducted regular code reviews and discussions on best practices within the team.

Key Achievements:

- Optimized eslint configuration settings to improve the overall codebase quality and automate import sorting.
- Analyzed UI/UX and proposed actions for creating a custom UI-kit, enhancing development speed and testing of front-end components.
- Fixed numerous bugs and developed several new pages and services, enhancing the functionality and user experience.

Front-end Developer | Monterosa

Jan 2019 - Sep 2023

Key Responsibilities:

- Developed and maintained user-friendly interfaces, enhancing platform usability.
- Utilized technologies like SCSS, Handlebars, CoffeeScript, JavaScript, and TypeScript.
- Built and integrated modules using Ember.js and React.js (Zustand).
- Conducted code reviews and wrote tests to ensure code quality.
- Managed tasks and coordinated with team members to meet project deadlines.

Key Achievements:

- Successfully led the transformation of the core project platform, improving user experience.
- Increased platform performance by 20% through optimization and refactoring old Ember.js code base.
- Received positive feedback from users and stakeholders for the improved interface and functionality.

Trainer of Front-end Development Courses | IT-Academy.by

Apr 2017 - Jul 2025

Key Responsibilities:

- Conducted courses on “Web Development with HTML, CSS, and JavaScript” and “Web Application Development with JavaScript”.
- Created an inclusive and supportive learning environment for students.
- Mentored students, providing guidance and support throughout their learning journey.

Key Achievements:

- Successfully trained and mentored over 500 students, many of whom have secured positions in big tech companies.
- Developed and updated course materials to reflect the latest industry trends and best practices.
- Received excellent feedback and testimonials from students for the quality of teaching and mentoring.
- Maintained a Telegram channel with useful links and materials on front-end development, supporting a community of former students.

Front-end Developer | Belitsoft

Aug 2014 - Dec 2018

Key Responsibilities:

- Worked on long-term and short-term projects, including the Bossrevolution project.
- Developed maintainable, cross-browser web applications.
- Created reusable components for quick integration of similar features.
- Developed and styled elements according to mock-ups, adding complex animations and writing tests.

Key Achievements:

- Played a key role in the Bossrevolution project, significantly improving the user experience.
- Trained and supervised junior colleagues, contributing to their professional growth.
- Enhanced the functionality and performance of the JOG app, resulting in positive user feedback.

Front-end Developer | EPAM Systems

Dec 2013 - Aug 2014

Key Responsibilities:

- Developed key components of projects using CMF Drupal.
- Distributed tasks and managed team members to ensure timely project completion.
- Created and styled admin panel parts and components, writing modules and adapting plugins.
- Writing modules and adapting plugin CKEditor version 4.x using the CKEditor API

Key Achievements:

- Successfully led the development of the Lundberg Design website, improving client satisfaction.
- Played a crucial role in the WebMD project, enhancing content management capabilities.

Front-end Developer | Startup Labs, Inc.

Apr 2012 - Dec 2013

Key Responsibilities:

- Developed corporate and advertising websites, including email templates.
- Assumed roles as an HTML coder and front-end developer for various projects.

Key Achievements:

- Contributed to the development of the Fishpond website, enhancing user experience and performance.
- Played a significant role in supporting and enhancing the Australian online store.
- Developed and maintained high-quality web applications, receiving positive client feedback.

Front-end Developer | Belitsoft

Jul 2011 - Apr 2013

Key Responsibilities:

- Developed websites of diverse complexity levels, from simple HTML pages to complex web applications.
- Supported and enhanced a prominent Australian online store, ensuring high performance and usability.

Key Achievements:

- Contributed to the development of websites of diverse complexity levels, assuming roles as an HTML coder and front-end developer.
- Played a significant role in supporting and enhancing the Australian online store (<https://www.fishpond.com.au/>)
- Developed reusable components and modules, improving development efficiency.
- Successfully completed multiple tasks, receiving positive feedback from clients and users.
